Policy Details

GENERAL PROVISIONS

Reduction in force due to reorganization, position eliminations or downsizing of an operating unit may qualify for benefit consideration under the same terms as the Organizational Transfer Between Emory Healthcare and Emory University policy. In order to be eligible for benefit consideration, the employee must be given written notification of his or her reduction in force by the department. The transfer must be approved and coordinated by EHC Director Human Resources Management and Emory University Human Resources.

Selection Criteria

The identification of positions/employees for reduction will be made in accordance with the following:

- Positions will be selected based on the needs of the department, including temporary work.
- Employees will be selected based on skills and abilities applicable to the department's needs, documented performance and length of Emory employment.

The department director has the responsibility of determining the position(s) to be eliminated.

In cases of reorganization, redesign or elimination of position(s), the department should develop a written plan outlining the new department structure and required positions. The plan should include a timetable, a communication strategy and charts reflecting the organization prior to and after the RIF.

Approval of Reduction

The proposed plan should be reviewed by Human Resources in advance of communication and implementation to determine the operational impact and possible placement of staff elsewhere. A written explanation and criteria for the recommended plan should be provided and approved by the respective dean, vice president or designee.

Notice
The department should give written notification and when feasible or appropriate, at least two weeks notice to all affected employees. **When advance notice of termination is not feasible or appropriate under the circumstances, the department should consider providing pay in lieu of notice.** When the employee receives pay in lieu of notice, the amount provided may take into consideration the employee's length of service and availability of departmental funds. Human Resources should be contacted before discussing final pay issues with the affected employee(s). Those employees who are given advance notice of termination in a reduction in force should be given reasonable time off to pursue other positions.
